PLAN YOUR JOURNEY WITH MYPLUS-TTA DURING THE SCHOOL HOLIDAYS, CHRISTMAS & NEW YEAR 2026

Petaling Jaya, 17 December 2025:- The public is strongly advised to plan their journeys in advance using the digital MyPLUS-TTA Travel Time Advisory to ensure smooth traffic flow during the upcoming year-end school holiday season, Christmas and New Year 2026 celebrations.

PLUS Malaysia Berhad (PLUS) has provided the MyPLUS-TTA, which is accessible via the PLUS app, to facilitate efficient travel planning for highway users and to help maintain smoother traffic flow during this festive. With the latest enhancements, the MyPLUS-TTA digital advisory is now available not only during festive seasons but also on selected peak days.

Throughout this period, the public can access the MyPLUS-TTA digital travel time advisory to choose the most optimum travel times for journeys on the PLUS-operated highways and the Lebuhraya Pantai Timur 2 (LPT2). This advisory is available on the PLUS app for travel between 19 December 2025 and 4 January 2026. The PLUS app can be downloaded via the Google Play Store (for Android devices) and the App Store (for iPhone users).

PLUS also anticipates that traffic volume will surge up to 2.2 million vehicles per day on the peak days across its network. These peak days are anticipated to be on 19, 20, 22, 23, 24, 26, and 27 December 2025 and 2 January 2026.

To manage the increase in the number of vehicles and facilitate smoother traffic flow, PLUS will activate the Smart Lane at 30 traffic hotspots along its highways. This initiative aims to ease traffic flow during this holiday and festive season. (Please refer to Appendix A for the Smart Lane activation locations).

In addition, highway users can also obtain the latest traffic information via the PLUS app, the Virtual Assistant – PUTRI, follow X@plustrafik and X@lpt2trafik, Variable Message Signs (VMS) at selected locations or through the radio stations.

The public may contact PLUSLine at 1800-88-0000 or LPT2Line at 1800-88-0220, both of which operate 24 hours a day for emergency assistance. We also advise all highway users to utilise the PLUS app, Waze or Google Maps to better plan suitable travel itineraries during this period.
